Product Description

Other features of the Sky Watcher Acuter Digital Spotting Scope include a self-timer for automatic snapshot at a preset interval and a 32MB on-board memory with SD card slot available for added memory. You'll also find a USB mass storage device and USB cable included in the package too.

What could be more fun than a spotting scope that has video capability? The Sky Watcher Acuter's digital focus meter on the camera ensures sharp and clear images. Want to get close? Use the digital zoom to get 4X power. The camera power adjustable at 6X to 22X. The Acuter has user friendly menu buttons and comes with a Photo/Video tripod adapter. Operates on 2-AA batteries (user supplied).
