Function

How can you prove that you nabbed that 10-point buck last month? What about that 20-inch bass this morning? Until now, you had to get your proof mounted and hung over the fireplace. But there's an easier way. The HIKNVB200 Night Vision Binoculars from Hike Crew enable you to take photos and capture video of your triumphs directly to an SD card. So the next time you're about to make a little history, you can capture the whole story in all its infrared glory.

BRIGHT SCREEN

The luminescent LCD screen gives a nice, sharp image so you can see even the finest detail, even in pitch darkness without having to squint or question what you're seeing.

Know our product

LARGE CRYSTAL SCREEN

Large Crystal Screen

The High-Fidelity image provides amazing visual clarity. It brings far objects near, reducing eye strain and allowing longer viewing periods. The soft, roomy eye cups are comfortable and large enough to accommodate classes.

CAPTURES STUNNING IMAGES

Captures Stunning Images

Our products integrated digital video and photo-taking capacity records high-quality snapshots and thrilling movies so memories are never lost. It shares exciting finds, rare specimens, and impressive trophies with friends and family.

POWERFUL VIEWING DISTANCE

Powerful Viewing Distance

The photography binoculars instantly see twice as far with stunning levels of detail. The study majestic wildlife up close and personal while still remaining at a safe and respectful distance. Enjoy Every Detail From Afar!

Why Hike Crew Night Vision Photography Binoculars?

Total Adaptability

Out in the wilderness, the light is constantly shifting from evening until morning. These shifts in ambient light are no problem when you have seven levels of IR brightness.

Onboard Playback

Watch the video you just recorded back again right away on the built-in LCD screen to check that every detail looks great.

Tripod Mounting

A tripod mounting provided with our night vision binoculars allows for hours of comfortable watch throughout those long nights in a tree stand or wherever the surface is flat for stable viewing.
